Digital Programmes

Mathletics

Mathletics has become a very successful and popular tool to support Reremoana School students' learning. **Years 3 - 8** students will be using the 'Mathletics' programme, both as part of their class programmes and for homework. Children who do not have access to a computer at home will have additional access at school.

Junior Digital Reading Programme

Students in our Years 0, 1 and 2 classes in Kiwi Team and Piwakawaka Team will be using a digital reading programme both as part of their class programmes and for homework. Children who do not have access to a computer at home will have additional access at school.

Please either pay online via the Officemax website or at our school office.

Spellodrome

The logo for Spellodrome, featuring the word "Spellodrome" in a white, sans-serif font on a green, rounded rectangular background with a subtle pattern of small letters.

Spellodrome is a digital spelling programme that has an engaging range of activities, games and challenges – all powered by students' own word lists. Designed by educators, Spellodrome encourages independent learning and the development of critical spelling awareness. Rewards and certificates keep students motivated, with a wide range of spelling games based on customised word lists. The word lists power the activities and challenges within Spellodrome, so learning is focused around only the target words.

Please either pay online via the Officemax website or at our school office.
We have options available to support families experiencing financial difficulties.
Please contact the office.
