

## Digital Subscriptions

A reminder that payment to access digital subscriptions are now due. Please note that the digital programmes are used for home learning but are also a very important aid used to extend and reinforce classroom learning. We ask that these subscriptions are paid as soon as possible. We believe that this is an addition to our learning programmes that will make a huge difference for our students.

In 2023 we are using the following programmes:

### Year 3-8

Education Perfect will be used by students in years 3-8. Education Perfect supports individualised learning journeys across a range of subjects. They have the tools and learning resources to support meaningful learning experiences for all students. This platform covers the learning areas of English, Maths, Science, NZ Histories, Te Ao Māori and more.

### Year 0,1 and 2

MathsBuddy is New Zealand's leading computer-based training program, designed to complement what you teach your kids in class. It helps guide your students lesson by lesson, allowing them to pause, rewind and repeat all or part of any lesson until they fully understand it.
