

TE AWA

TERM 3

FIELD OF DREAMS

Years 4-6 have been given 8 FREE swimming lessons at the Manurewa Pools. Children will be learning how to float, swim using different techniques, as well as water safety in the ocean.

REHU TAI & Y4 SPEECHES

This term our students have delivered their speeches. If they have made it through to the team finals, you will be contacted. The Year 5 & 6 finalists will be competing for a place at the Manurewa Rehu Tai competition.

BSLA

This term, after a series of training days for teachers in Term 2, we have started our Structured Literacy Programme BSLA. Some of you will be familiar with this from the junior school. We look forward to seeing how our readers progress.

FOOD SCIENCE

We've had feedback from families that you would love to see more science in the Te Awa team. We hear you! Later this term we will begin learning about Food Science. Keep your eyes peeled for updates about what we're learning!
